SEE YOU AT CAMP!

ABOUT SUMMER CAMP

During America's founding era, people valued virtues and principles such as honesty, integrity, industry, limited government, and independence. These virtues and principles, sometimes called "Americanism," were once taught in every schoolhouse and campus in America. Today youth around the nation are still learning about the core principles of Americanism while having the time of their life at Youth Meets Truth! Summer Camps.

The perfect mixture of fun and learning keeps youth enthusiastic about returning year after year to camp. Over thirty years of experience in managing these camps, combined with outstanding instructors and staff, makes these camps an outstanding place for youth to spend a week of their summer vacation.

GET INVOLVED BEFORE CAMP
